

Face Equality International are a charity and global alliance of organisations working towards **a world free of barriers, where people with facial differences are thriving and proud to be themselves.** You're receiving this invitation to get involved because this cause matters to your community, customers and staff alike.

JOIN US!

For most people, socialising with friends at a café and bar or going for a meal with loved ones is an enjoyable part of everyday life. Yet people with facial differences can encounter discrimination throughout day-to-day life - being ignored, refused service or mistreated when out and about. **Let's change that.**

We want to ensure that no one feels excluded, and we're sure you do too. Everyone deserves to be Seen & Served, regardless of appearance. Sign our pledge to show your support and unlock a range of resources on how to get involved. Let's make sure everyone has a seat at the table!
